Soweto Gospel Choir

From South Africa, the Soweto Gospel Choir is well-established on the international circuit and for good reason. Their music celebrates African Gospel music in a truly inspirational way, magically combining the earthy sounds of their percussion and the wondrous harmony of their a cappella voices. As spiritually bereft as I am, I was left awestruck by the choir's majestic and moving performance, such is its universal appeal. I have never experienced any other concert that can hold you at the verge of tears only to uplift you in witnessing the infectious euphoria on stage, in the space of one hour. You have to see this choir live to properly appreciate their appeal; there is no equal to their passion and power.
